

# Everything you need to know about the Multi Protocol Driver (MPD)

## Integration of your payment terminal made easy

**With the Multi Protocol Driver (MPD) from SIX you can rely on an interface used by over 50,000 payment terminals. This information sheet shows you at a glance all the key data relating to MPD.**

Integration of MPD is quite simple: Thanks to MPD, your point-of-sale application or software communicates seamlessly and automatically with the payment terminals from SIX. MPD lets you and your customer decide which ep2 payment terminal from SIX you would like to integrate.

**With MPD you can benefit from the following advantages:**

- Secure, reliable transaction process
- Full ep2 support
- Independent of operating system
- Self-explanatory API
- Many development environments and programming languages supported
- Modular technical architecture for any known payment procedure

**Many payment terminals supported**

MPD supports the entire range of ep2 payment terminals from SIX. Communication via LAN or serial is required.

**Service for everything relating to its setup**

If you decide on MPD, you benefit from developer support free of charge by telephone or e-mail. SIX also offers you on-site support (subject to a fee). We also support you during final acceptance with type testing of your cash register integration.

**Operating systems**

- Simply use MPD with the following operating systems:
- Windows NT, 2000, XP, Vista 7, 8 and 8.1
  - Windows CE
  - Linux
  - MAC OSX

Is your operating system not listed here? Contact us so that we can work together to develop a suitable solution.

**Programming languages**

The API of MPD can be addressed with the following programming languages:

.net	Perl	Java
C#	Visual Basic/COM	C++
Visual Foxpro	Delphi	VB-Script
Xcode		

**Log function**

MPD constantly records and saves the recordings in log files on a daily basis. Sensitive data is masked and encrypted when logged, so you do not need to worry about special storage requirements.

**Do you have any questions on MPD?**

**We'll be happy to advise you.**
