

The goCard! E-Commerce packages¹

goCard! Secure PayGate – For encrypted e-commerce payments, even without an online shop and without any need for technical integration – simply send your payment link by email. Start benefiting today from the package with card acceptance included and an individual monthly flat rate.

The goCard! Secure PayGate package

- Saferpay Secure PayGate with pre-sales screen and payment link sending function
- Acceptance of Visa, V PAY, Mastercard, Maestro, Diners Club, Discover, Masterpass and TWINT
- Increased security thanks to 3-D Secure payments
- DCC: Your international customer pays in their home currency
- No technical integration
- Monitor and manage payment transactions in real time in the mySaferpay online portal
- Evaluate and analyse data in the myPayments and myCompany online portals
- PCI DSS-certified²
- Technical support and customer service 24/7
- Free updates
- Can be cancelled at any time³
- No set-up fee

The advantages at a glance

- No investment in your own online shop
- No SSL certificates for you to administer (Saferpay takes care of this)
- No complicated programming of interfaces (API)
- Platform-independent
- Automatic journaling of all transactions
- Administrator access to mySaferpay
- DCC: Your international customer pays in their home currency

Especially suitable if you:

- take orders by phone, fax or post
- don't want to run your own online shop
- want to offer individual products and services

Card acceptance included in the goCard! packages

Today, paying by card is a matter of principle for your customers. The wide acceptance of debit and credit cards and mobile payments and consequently the quick and reliable processing of transactions in retail are the nuts and bolts when it comes to making cashless payments.

SIX Payment Services offers the world's most widely-used debit and credit cards and mobile payment solutions from a single source for your payment terminal in your shop or online shop. The more payment options you accept, the bigger your chances of increasing sales and spur-of-the-moment purchases.

"Blended" price model

The acceptance flat rates of the goCard! packages are based on the "Blended" price model. This combines all incurred fees into one uniform rate.

¹ The goCard! E-Commerce packages are only available online.

² PCI DSS stands for Payment Card Industry Data Security Standard. Certified products significantly reduce the risk of data theft.

Saferpay products from SIX meet the PCI DSS security standards.

³ Subject to a notice period of three months at the end of every month.

The online portals in goCard! packages

mySaferpay

You can easily and conveniently monitor and manage all of the payment activities in your online shop using the mySaferpay administration portal.

- Efficient controlling
- Manage and monitor accounts and payment transactions
- No software installation
- Access is encrypted using the SSL
- Optimum overview of individual bookings and detailed reporting
- Daily closings round the clock, manually or automatic

myCompany

Focus your marketing activities more specifically on customer segments. myCompany allows you access to analysis and reports about your company for the last two years:

- Insight into planning optimisation – on which day the most/least sales are made
- Information about customer behaviour in terms of card products and technologies
- How much DCC potential you have compared to competitors
- Insight into the use of your sales channels compared to competitors

myPayments

With myPayments you have everything at a glance. Take control of your transactions and payments.

- Ready access to transactions and credit notices from the last nine months
- Clear, detailed presentation of all payments and daily closing balances
- Information about the status, commission rates and fee details
- Reports available as a CSV or Excel file to make it easier to search, check and archive
- View und download credit notices in PDF format

DCC – Dynamic Currency Conversion

The home advantage for your international customers. The dynamic currency conversion (DCC) from SIX enables your international clientele to feel at home when making payments.

With DCC, Saferpay automatically recognises foreign cards and immediately recommends your customers the pay in his local currency. At just a touch of a button, he can decide in which currency he would like to pay for his purchase – either in local currency or in Swiss francs.

Our service
