

mPRIME – everywhere your customers are

Your customers can pay securely and quickly via your smartphone or tablet with mPRIME, the new mobile payment terminal from SIX.

The benefits of mPRIME at a glance

- Current PCI 4.x security certification (up to 2026)
- Fast payment thanks to the contactless function (NFC)
- Card acceptance: Visa, V PAY, Mastercard, Maestro, American Express, Diners Club, Discover, UnionPay, JCB and PostFinance Card
- DCC: Your international customers pay in their home currency
- Free app (iOS/Android)
- Plug & Pay – can be used everywhere mobile
- Replaceable battery

mPRIME product variants

mPRIME AUTONOM APP

- Works easily with the SIX app
- Easy connection to mobile devices via Bluetooth
- Easy acceptance of card payments regardless of the cash register system

mPRIME PINPAD

- Can be integrated into your payment environment with the SIX TIM interface
- Integration support from SIX
- Use a cost-effective and mobile payment terminal for card acceptance anytime via an existing cash-register infrastructure
- Mobile and flexible to use thanks to WiFi and Bluetooth connection
- Also available with barcode scanner

Card acceptance

Today, paying with card is a given for your customers. That's why a broad acceptance of credit and debit cards and mobile payments (Apple Pay, Samsung Pay, etc.) is the most important thing when it comes to cashless payments.

SIX offers you the most common credit and debit cards from one provider for your payment terminal in your shop or in your online shop. The more payment options you accept, the greater your prospect of an increase in sales and spontaneous purchases.

myPayments and myCompany online portals

myPayments

Everything at a glance with myPayments – Gain control of your transactions and payments:

- Access transactions and credit notices from the last three months any time
- Clear, detailed display of all payments and daily closings
- Information about status, commission rates and fee details
- Reports as CSV or Excel for easy searching, controlling and archiving
- View/download of credit notices

myCompany

Adjust your marketing activities to be more focused on customer segments. With myCompany you will receive access to analyses and reports on your company over the course of the past two years:

- Findings for planning optimisation
- Which day brings in the highest/ lowest revenue
- Information about customer behaviour regarding card products or technologies
- Findings on the use of sales channels compared with competitors

DCC – Dynamic Currency Conversion

Dynamic Currency Conversion (DCC) from SIX Payment Services allows your international clientele to feel at home when paying.

Your payment terminal recognises foreign cards automatically with DCC and immediately gives your customer the option of paying in their home currency. With just the press of a button, they can choose which currency they would like to use for the purchase – be it their home currency or Swiss Francs.

App

The SIX mPRIME app can be downloaded for free in the Apple App Store or Google Play Store and can only be used in conjunction with the mPRIME payment terminal.
