1 UnionPay

UnionPay International (UPI) or China UnionPay (CUP) is the only Chinese credit card organisation and, with more than 6 billion issued cards, it is the world's largest card network. UnionPay is also widely accepted outside of China, as UnionPay is now accepted as a method of payment in 125 countries. By partnering with more than 1,000 institutions worldwide, UnionPay International has been able to extend card acceptance to 160 countries and regions with card issuance in over 40 countries and regions. By adding UnionPay to its payment method portfolio, SIX has opened the door for you to the world's largest e-commerce market in China.

UnionPay is only available for JSON API and Secure PayGate on the payment page. The "old" interfaces are not supported.

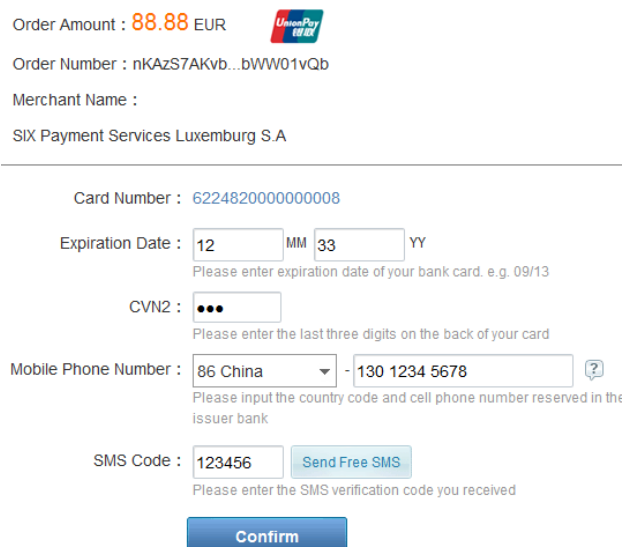

The screenshot shows a payment page with the following details:

- Total amount:** EUR 88.88
- Card data:** Card number * 6224 8200 0000 0008
- Offer:** Your order ABC/01
- Merchant:** SIX Payment Services Luxembourg S.A., 10, rue Gabriel Lippmann, 5365 Munsbach, Luxembourg, saferpay-qa@six-group.com
- Buttons:** Quit and BUY

At the bottom, it says "Saferpay - powered by SIX".

Authorisations of UnionPay payments are recorded instantly and automatically. All payments are guaranteed by SecurePlus (the 3-D Secure process of UnionPay).

The verification form contains the following fields and instructions:

Credits are also booked via JSON API or the Backoffice.

2 Mail-/Phone-Order solution

2.1 New authorisation role "MPO Agent Advanced"

We have added a new authorisation "MPO Agent Advanced".

"MPO Agent Advanced" has the following access rights:

- Make bookings, on the basis that no cancellations or credits can be issued
- Access to journal and transaction details, on the basis that only own transactions are visible. Transactions from other users are not displayed.
- Read permission for the "daily closing"
- "Online support"
- "User settings"
- "Home" view

3 SOFORT

3.1 Support for iFrame integration for SOFORT

As SOFORT does not support iFrames, the SOFORT page will be automatically displayed on a full page rather than in iFrame.

4 Backoffice

4.1 Export of rejected reservations

Up to 100,000 entries can now be exported from the journal of rejected reservations.
