

TWINT – MORE THAN A PAYMENT SOLUTION

EASY AND SECURE PAYMENTS WITH YOUR SMARTPHONE: AT THE CASH REGISTER, IN ONLINE SHOPS, WITH FRIENDS.

TWINT is the ideal introduction to the world of mobile payments. SIX Payment Services provides you with many solutions to accept TWINT; all of them are simple and easily integrated, be it at a payment terminal or in e-commerce.

TWINT is the mobile payment method from the largest Swiss banks: BCV (Banque Cantonale Vaudoise), Credit Suisse, PostFinance, Raiffeisen, UBS, Zürcher Kantonalbank and SIX Payment Services.

ACCEPT PAYMENTS WITH TWINT

TWINT on the payment terminals

TWINT works on both fixed and mobile stand-alone and cash-register-integrated SIX Payment Services payment terminals with a display. The QR code that is generated is shown on the display and scanned by the TWINT app user. Activating TWINT is simple.

TWINT in e-commerce

TWINT is a simple and fast payment solution for e-commerce. Make payment easier for your customers and integrate TWINT into your online or app shop. The check-out process is simple, as the user is not required to enter data manually. TWINT connects via the payment service provider.

THE ADVANTAGES FOR YOU:

- No additional infrastructure – your customers pay with their smartphone
- New customer potential – any customer with a Swiss bank account can use TWINT, regardless of the brand of their smartphone
- No complicated processes – the procedure at the payment terminal is exactly the same as for card terminals
- Secure payment method – TWINT is backed by the major Swiss banks

ADVANTAGES FOR YOUR CUSTOMERS:

- Easy and hassle-free payments, be it at the cash register, in restaurants, in online shops or at vending machines
- Send money to and request money from friends
- Discounts and exclusive benefits thanks to digital coupons
- Easy handling of digital stamp cards and loyalty programmes in the app
- All data is kept in Switzerland
