- Quick payment due to contactless function
- Safety standard PCI PTS 4.x³
- DCC – Dynamic Currency Conversion (your international customer pays in his local currency)

Card acceptance included in the goCard! package

Today, paying by card is a matter of principle for your customers. The wide acceptance of debit and credit cards and mobile payments (Apple Pay, Samsung Pay, TWINT etc.) and consequently the quick and reliable processing of transactions in retail are the nuts and bolts when it comes to making cashless payments.

SIX Payment Services offers the world’s most widely-used debit and credit cards and mobile payment solutions from a single source for your payment terminal in your shop or online shop. The more payment options you accept, the bigger your chances of increasing sales and spur-of-the-moment purchases.

“Blended” price model

The acceptance flat rates of the goCard! package are based on the “Blended” price model. This combines all incurred fees into one uniform rate.

Desk 3500 COMPACT Technical data

² Subject to a three-month notice period at the end of each month

³ PCI PTS stands for Payment Card Industry PIN Transaction Security. This universally-valid safety standard pertains to payment terminals with a PIN code. Certified payment terminals considerably reduce the risk of data theft. Payment terminals from SIX Payment Services meet PCI PTS safety standards.

The online portals included in the goCard! package myPayments

With myPayments you have everything at a glance. Take control of your transactions and payments.

- Ready access to transactions and credit notices from the last nine months
- Clear, detailed presentation of all payments and daily closing balances
- Information about the status, commission rates and fee details
- Reports available as a CSV or Excel file to make it easier to search, check and archive
- View und download credit notices in PDF format

myCompany

Focus your marketing activities more specifically on customer segments. myCompany allows you access to analysis and reports about your company for the last two years:

- Insight into planning optimisation – on which day the most/least sales are made
- Information about customer behaviour in terms of card products and technologies
- How much DCC potential you have compared to competitors
- Insight into the use of your sales channels compared to competitors

Service package Comfort

- Free hotline 24 x 7
Our support team can advise you – free-of-charge 24 hours a day, 365 days a year.
- Troubleshooting
Send in your faulty device and you will get it back, repaired, by post
- Transaction journal
The transaction journal gives you an overview by e-mail of the card sales at the point of sale (POS)
- Software update
Your payment terminal is automatically updated to ensure the highest safety standards

DCC – Dynamic Currency Conversion

The dynamic currency conversion – Dynamic Currency Conversion (DCC) from SIX Payment Services enables your international clientele to feel at home when making a payment.

With DCC, your payment terminal automatically recognises foreign cards and immediately recommends your customer to pay in his local currency. At just a touch of a button, he can decide in which currency he would like to pay for his purchase– either in local currency or in Swiss francs.
